**Teton Gold**

**Spec** 3230 \* 1630 mm Polished  
Mega Size Available For Special Order

Teton Gold, inspired by the majestic Teton Range, captures the essence of nature's artistry. This exquisite surface, with its pristine white background interwoven with delicate gold and grey veins, mirrors the beauty of a snow-capped peak kissed by the golden hues of a sunset. The veins, reminiscent of the rugged yet graceful rock formations of the Tetons, add timeless elegance and natural wonder to any space. Every line in Teton Gold tells a story of nature's grandeur, blending the purity of snow, the warmth of sunlight, and the strength of mountain stone.
